45 CFR Ch. III (10–1–11 Edition)

The quarterly repayment amounts for each of the quarters in the repayment schedule shall not be less than the following percentages of estimated State share of the annual expenditures for the program against which the recovery is made.

For each of the following quarters	Repayment installment may not be less than these percentages
1 to 4	2.5
5 to 8	5.0
9 to 12	17.5

If the State chooses to repay amounts representing higher percentages during the early quarters, any corresponding reduction in required minimum percentages would be applied first to the last scheduled payment, then to the next to the last payment, and so forth as necessary.

(2) The latest required financial reports submitted by the State shall be used to estimate the State's share of annual expenditures for the IV-D program. That estimated share shall be the sum of the State's share of the estimates for four quarters, beginning with the quarter in which the first installment is to be paid.

(3) In case of termination of the program, the actual State share—rather than the estimate—shall be used for determining whether the amount of the repayment exceeds 2½ percent of the annual State share for the IV-D program. The annual State share in these cases will be determined using payments computable for Federal funding as reported for the program by the State on its Quarterly Report of Expenditures and Estimates submitted for the last four quarters preceding the date on which the program was terminated.

(4) Repayment shall be accomplished through adjustment in the quarterly grants over the period covered by the repayment schedule.

(5) The amount of the repayment for purpose of paragraphs (a) and (b) of this section may not include any amount previously approved for installment repayment.
